DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-21 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Dennington.

Dennington discloses a one-piece soft link 88 with a permanently looped first end (see figure 4) since the loop can be left as it indefinitely, a permanently second end (with a lump) that is looped with tabs 90 attached to the second end. The soft link is made out of rope material/nylon.

Please note that the intended use of attaching the riser to parachute suspension line or bridle cord to the canopy, carries no patentable weight. Besides, the system of Dennington can be used to attach these elements together.

Re claims 16 and 17, it would have been obvious to one skilled in the art at the time the invention was made to have used bartack thread in Dennington's system since this is merely a substitution of parts. Further, the criticality of using bartack thread has not been disclosed.

Art Unit: 3644

Re claim 21, please note it would have been obvious to one skilled in the art at the time the invention was made to have used labels in Dennington's system to provide instructions or advertise the brand.

Response to Arguments

The Examiner has substitute Armour with the Dennington reference. This renders the applicant's argument moot.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
